Eliminate Energy Vampires

- Unplug power supplies and battery chargers for mobile phones, PDAs, and camcorders—these draw power when not in use and after the batteries are fully charged.
- Turn off and unplug coffee makers, microwaves, and toasters ovens when not in use.
- Use a power strip to conveniently cut power from hard-to-reach plugs.

Office equipment that has earned the **ENERGY STAR** label helps eliminate wasted energy through special power management features. Overall, **ENERGY STAR** qualified office products use about half as much energy as other equipment.
