FOR IMMEDIATE RELEASE

Guam Energy Office Announces Additional Retailers For Appliance Rebate

June 14, 2011 —

The Guam Energy Office is happy to announce the addition of four new appliance retailers to the list of participating retailers under the State Energy Efficient Appliance Rebate Program. Appliance Galleria, Cooltech, Daikin and MJM International Corp., have joined the program by offering Guam residents additional options to make use of their \$500 Split Air Conditioner rebate vouchers.

“From the onset of the program on December 6, 2010, any appliance retailer on the island was offered the opportunity to become a participating retailer” says Lorilee Crisostomo, Director at the Guam Energy Office. “With the success and popularity of the program, retailers were having trouble keeping up with the demand. Now, residents are given more options and retailers will be better able to handle the increased demand.”

Residents are advised to obtain a rebate voucher from the Guam Energy Office and bring it to a participating retailer to make their purchase. The participating retailers are AFM Wholesale, Johnstone Supply, JWS Refrigeration & Air Conditioning, Navy Exchange Home Gallery, and TownHouse Furniture & Appliance in addition to the newly joined Appliance Galleria, Cooltech, Daikin and MJM International.

Since the launch on December 06, 2010, the State Energy Efficient Appliance Rebate Program (SEEARP) has been offering Guam residents rebate vouchers to aid in their purchase of an Energy Star appliance for the replacement of old inefficient appliances. Effective June 16, 2011, the processing hours for appliance rebate program will be Monday – Friday from 10:00am – 2:00pm.
